ABOUT ME

HI! I AM A 23 YEARS OLD STUDENT FROM THAILAND. I RECENTLY JUST GRADUATED FROM THE UNIVERSITY OF SYDNEY WITH A BACHELOR OF ARTS MAJORING IN INTERNATIONAL RELATIONS AND BUSINESS INFORMATION SYSTEM. FOR THE LONGEST TIME I THOUGHT MY PASSION LIED IN DIPLOMACY. BUT AFTER COMPLETING AN INTERNSHIP AT THAILAND'S MINISTRY OF FOREIGN AFFAIRS I KNEW THAT MY INTEREST LIES ELSEWHERE. WITH A NEW FOCUS TOWARD INFORMATION SYSTEM, I DECIDED TO JOIN CODER ACADEMY TO UPSKILL MYSELF AND I HAVE NO REGRET!

BLOG POST SAMPLE

NAV BAR

COMPONENT USED

1. The responsive nav bar change from fully displaying across the header to a drop down menu depending on the screen size, when user hovers over the full-display nav-bar an it will change color through an animation transition. The color also changes in the drop down menu
2. Flexbox was used for the website layout to oragnize the page and provide user with a seamless and consistent experience
3. Media queries was use so that the no content of the website will break when acessing from different devices
4. Effects and animation was used to make the website fun and aestheticlly pleasing

CONCLUSION

Creating this website was both fun and challenging. To be honest, I encountered various issues in almost every step of completing this website. But nevertheless, it was very fulfilling and satisfying to figure each issue out and make this website work.
